

Subject: Support The Providing for Unhoused People with Pets (PUPP) Act

Dear [Elected Official's Name],

I hope this email finds you well. I am writing to urge you to support The Providing for Unhoused People with Pets (PUPP) Act, a crucial piece of legislation that holds the potential to make a meaningful impact on the lives of both people and their beloved pets.

As a passionate advocate for animal welfare and social change, I believe that preserving the human-animal bond is of utmost importance, even in times of hardship. The PUPP Act addresses this issue by permitting the Department of Housing and Urban Development to award grants for housing solutions that accommodate individuals experiencing homelessness and their pets. By supporting this bill, you have the opportunity to create a world where no one has to choose between their home and their pet, fostering empathy, compassion, and resilience.

The bipartisan support for the PUPP Act is a testament to its significance. Representatives Brian Fitzpatrick (R-Pa.) and Jason Crow (D-Colo.) have both emphasized the importance of keeping families together, both human and animal, during challenging times. Pets are more than just companions; they are family members who provide comfort, companionship, and emotional support.

I kindly ask you to champion The Providing for Unhoused People with Pets Act and work towards its successful passage. By supporting this legislation, you will contribute to the well-being of individuals experiencing homelessness and their pets, and you will help create a brighter future for both.

Sincerely,

[Your Name]
